

# Ruth Bader Ginsburg Died

## ALMOST 2 YEARS AGO!!!

### On January 21, 2019

This picture was posted on Fox and Friends on **January 21, 2019**. Obviously, Fox News didn't get the message from the Rothschilds to keep her death a secret so Trump couldn't appoint a replacement. They chose to pretend she just died (on rosh hashanah, no less) so there could be another attempt at impeaching Trump, or at least so the Soros-funded rioters could raise hell and destroy more of America.

"Fox & Friends" accidentally shows graphic saying Ruth Bader Ginsburg is dead

Ruth Bader Ginsburg: Pushed for legalization of consensual sex between children as young as 12 years old, demanded the removal of all sex pronouns, was responsible for the abortion of 30 million unborn children, many of them girls. The woman was twisted and evil.

And how she came to look like the Devil!

She started out looking relatively normal, but the more she did the Bidding of her evil master, the more she began to resemble him: Satan!
