

Learn About the Communist Terrorists Who Presently Rule Over Us

It's not a matter of
what is true that
counts but a matter
of what is perceived
to be true

The College of Physicians and Surgeons of Ontario is threatening to investigate and discipline doctors who make comments critical of government lockdown policies.

 CPSO

The College is aware and concerned about the increase of misinformation circulating on social media and other platforms regarding physicians who are publicly contradicting public health orders and recommendations. Physicians hold a unique position of trust with the public and have a professional responsibility to not communicate anti-vaccine, anti-masking, anti-distancing and anti-lockdown statements and/or promoting unsupported, unproven treatments for COVID-19. Physicians must not make comments or provide advice that encourages the public to act contrary to public health orders and recommendations. Physicians who put the public at risk may face an investigation by the CPSO and disciplinary action, when warranted. When offering opinions, physicians must be guided by the law, regulatory standards, and the code of ethics and professional conduct. The information shared must not be misleading or deceptive and must be supported by available evidence and science.

“There will be, in the next generation or so, a pharmacological method of making people love their servitude, and producing dictatorship without tears, so to speak, producing a kind of painless concentration camp for entire societies, so that people will in fact have their liberties taken away from them, but will rather enjoy it, because they will be distracted from any desire to rebel by propaganda or brainwashing, or brainwashing enhanced by pharmacological methods. And this seems to be the final revolution”

— Aldous Huxley

Can you help
me find a way to
test for RONA?
I'm a bit confused
about this.

How do I know if I'm
positive for RONA?
I've been told I should
test for it.
